Callington

SPECIALTY CHEMICAL MANUFACTURERS FOR AVIATION AND INDUSTRY

www.callington.com

CALLINGTON

Callington is a global specialty chemical manufacturing group. Established in 1968 Callington provide chemical solutions to the global aviation and metals industry.

Callington specialise in:

- Aviation Maintenance Chemicals
- Aircraft Insecticides & In-Flight Products
- Welding and Metal Treatment Products
- Metal Working Fluids
- Industrial Products
- Non Destructive Testing Products
- Contract Manufacturing

We have offices in Australia, USA, UK, India, Thailand, Singapore and Malaysia, which help service our customers globally.

Callington has a skilled and experienced global sales team, who provide focused and professional customer service and technical advice. New product solutions are derived from in-house expertise combined with a willingness to access new technology worldwide to provide innovative solutions for our client base.

AVIATION MAINTENANCE CHEMICALS

Sold to over 150 airlines around the globe, our aviation maintenance chemicals have been designed to meet the exacting standards of the industry while allowing users to meet today's stringent environmental regulations. Our range includes speciality solvents, degreasers, a range of paint strippers, aircraft wash and polishes.

AIRCRAFT INSECTICIDES & INFLIGHT PRODUCTS

We are an ISO 9001:2015 accredited manufacturer and international distributor of insecticide products specifically designed to meet the global aircraft quarantine and biosecurity regulations. Our insecticides comply with aircraft manufacturers' material safety standards.

WELDING AND METAL TREATMENT PRODUCTS

We are Australia's largest supplier of chemicals for the welding market with a market leading position in pickling gels, anti-spatter spray, passivators and other pre and post treatment chemicals.

METAL WORKING FLUIDS

Our engineering products include a range of premium metal working fluids for engineering workshops, featuring general purpose fluids as well as specialty fluids for particular applications. These products have been developed in conjunction with engineering workshops and distributors to address the problems and needs behind each machining application.

NON DESTRUCTIVE TESTING

We provide a leading range of Non Destructive Testing including; Visible Penetrant Systems, Magnetic Flaw Detection & NDT Accessories.

FUEL ADDITIVES

We manufacture and supply a range of effective diesel and petrol fuel additives designed to maintain engine cleanliness, performance and to reduce emissions. Our range also includes pour point depressants, storage tank additives, Cetane Improvers, Biocides and various car care products.

INDUSTRIAL

We manufacture and supply a leading range of high quality industrial products including; paint strippers, fuel additives, industrial cleaners and degreasers and industrial aerosols.

CONTRACT MANUFACTURING

We offer a range of chemical contract manufacturing services. Our technical ability goes beyond simple manufacturing and can include product design or optimisation, according to the customer's needs. Our plant is ISO 9001:2015 certified.

Callington Haven is an ISO 9001:2015 Certified Company whose products comply with international specifications & approvals, including; Boeing, Airbus, McDonnell Douglas and Military Specifications.

Callington

CALLINGTON OPERATES GLOBALLY ACROSS SIX CONTINENTS AND OUR SPECIALTY PRODUCTS AND SERVICES ARE PROVIDED TO CUSTOMERS IN OVER 60+ COUNTRIES.
