

CALGUARD ANTI-SPATTER SPRAY

Code: 1400

DESCRIPTION

Cal-Guard Anti Spatter Spray is a water based, paintable, cost effective and non-flammable agent for the prevention of weld-spatter adhering to metal surfaces during the welding process.

Cal-Guard Anti Spatter Spray has outstanding performance preventing spatter sticking to a wide range of steels, including mild steel, stainless, steels and aluminium.

Cal-Guard Anti Spatter Spray avoids the need for mechanical abrasion or grinding of weld spatter following welding. It contains corrosion inhibitors for base metal protection. Cal-Guard increases the life of torch components saving time and money. Eliminates spatter build up which results in poor gas flow causing pitting, porosity and burnbacks.

PHYSICAL PROPERTIES

Appearance : Light red mixes freely with water
Boiling Point (Deg C) : 100°C
Specific Gravity : 1.008

BENEFITS

Reduces downtime for cleanup tasks	Non toxic, biodegradable
No-flammable	Ozone safe
Uniform spray with no bubbles	Paintable , contains no silicones
User safe	Eliminates need for grinding unwanted spatter
Economical	Base metal corrosion protection

DIRECTIONS FOR USE

Welding Torch

Spray Cal-Guard Anti Spatter Spray before welding in a thin and uniform film onto the areas to be protected. Hold spray can approximately 30 cm from the surface to be protected. Also use the spray to protect the interior and exterior of nozzles, the end and outer surface of contact tips, and all other potential areas which are subject to weld spatter. It may be advisable to spray diffusers and the base of the nozzle support as well.
