

CH2014

Code 6700

HEAVY DUTY INDUSTRIAL STRENGTH PAINT STRIPPER QUICK REMOVAL OF PAINTS FROM STONE, BRICK & CONCRETE

DESCRIPTION

CH2014 is a powerful acidic paint stripper for brush or spray application, especially for removal of the most difficult to remove coatings from brick, concrete, stone.

CHARACTERISTICS

CH2014 is a heavy bodied, viscous material which will cling to vertical and inverted surfaces.

CH2014 is a thick amber liquid, with a pungent odour.

Apply CH2014 by brush or by spray. For spraying use a Hydra-Clean pump or equivalent.

Once paint has blistered, agitate surface with brush to loosen any tenacious paint left sticking to surface and then rinse off with high pressure water or scrape and rinse off.

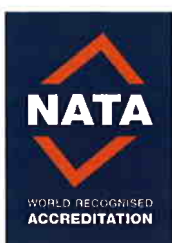

Where the surface is porous a shadow of paint may be left in the pores. In such a case, apply by brush or spray a solution of Callington Haven AC80SL detergent. Allow to soak for 30 minutes and the hose off with high pressure water.

WARNING

Store away from foodstuffs. Corrosion to skin and eyes. CH2014 contains Dichloromethane, Phenol and acid. Therefore, care must be taken when handling this product. Do not smoke while using CH2014. Avoid contact with skin and eyes. Wear protective gloves, eye goggles and protective clothing.

Avoid breathing its vapours. Use good ventilation in working area.
