

# CH8880

Code 6500

## HEAVY DUTY GEL TYPE GRAFFITI REMOVER

### DESCRIPTION

CH8880 is a powerful, phenolic paint stripper for the removal of Graffiti.

CH8880 will remove almost all difficult to remove graffiti from metal, timber, brick, concrete, stone and most other construction substrates.

### CHARACTERISTICS

CH8880 is a heavy bodied, viscous material which will cling to vertical and inverted surfaces.

Amber liquid.  
Low odour.

Slow evaporation rate and extended working life.

### APPLICATION

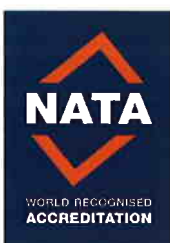

**Graffiti Removal:** CH8880 is used effectively to remove graffiti from brickwork, stone and concrete etc. Apply by brush or spray.

Allow approximately 30 minutes for CH8880 to penetrate and soften graffiti. Agitate surface with a stiff bristle brush before hosing off with high pressure water.

Where the surface is porous, a shadow of paint may be left in the pores. In such a case, apply by brush or spray a solution of Callington Haven AC80SL Graffiti Shadow Remover. Allow to soak for 30 minutes and then hose off with high pressure water.

**External Building Surfaces:** When removing paint from porous brick or concrete surfaces use CH8880 and AC80SL as per instructions above "GRAFFITI REMOVAL".
