

## Ultra Synthet 971 Series

### MULTI-FUNCTIONAL NON-TOXIC SYNTHETIC MACHINING FLUID

Lasts up to 5 times longer than soluble oil. For ferrous and non-ferrous metals, e.g. aluminium, alloy, copper, brass, low and high carbon steel, HSS, stainless steel and cast iron.

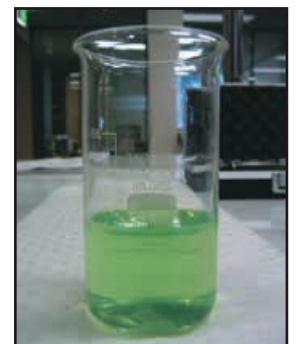

- ✓ Excellent rust control and doesn't stain aluminium, alloy and copper
- ✓ Cobalt leach free for carbide toolings
- ✓ Clear pale green, excellent work visibility
- ✓ Superior surface finish with high metal removal rates
- ✓ High resistance to microbial degradation, no rancidity
- ✓ Doesn't contain carcinogenic compounds
- ✓ Multi-metal safe
- ✓ Non hazardous, non dangerous
- ✓ Rejects tramp oil and allows for easy separation
- ✓ Pleasant odour and minimised fog or mist
- ✓ Minimised deleterious effect on skin conditions

5L, 20L, 200L
