KNOCKDOWN

Code 4509

Aerosol Insecticide for Aircraft

DESCRIPTION

Callington Knockdown is a non-flammable non-hazardous Aircraft Insecticide for the rapid control of both flying and crawling insects.

Knockdown complies to World Health Organisation specifications and can be used to control all types of crawling and flying insects.

APPLICATION

Spray in the direction of insects. For residual treatment spray onto the surfaces where insects are found. Suitable for use in all types of aircraft and ground based amenities.

SAFETY DIRECTIONS

Knockdown is manufactured in a pressurised can. Do not incinerate or puncture this can. Even when empty store in a cool place out of the sun. Do not expose to temperatures exceeding 50°C. Do not spray on exposed food, food preparation areas or food utensils. Avoid inhalation of vapour if sensitive. Do not spray directly on skin or in eyes.

PACKAGING

Knockdown product is available. In 12 x 150 gram aerosols cans.

WARRANTY – All statements, information and data presented herein are believed to be accurate and reliable but are not to be taken as a guarantee, expressed or implied, for which seller assumes legal responsibility and they are offered solely for your consideration, investigation and verification. Statements or suggestions concerning possible use of this product are made without representation or warranty that any such use is free of patent infringement and are not recommendations to infringe on any patent.
